

opportunities

TTP is looking for bright, hardworking, innovative and hands-on scientists and engineers with a high degree of commercial awareness to contribute to the continued growth and success of our business. Our success depends on the technical excellence, flexibility and commitment of our staff to ensure we meet our customers' targets – development timescales are short, the specifications demanding, and the projects often require international travel.

Optical Physicist (ref.www-AS5)

Applied Science Group

The Qualifications:

- Physicist or Engineer with a 1st or 2.1 degree and PhD from leading institute.
- Strong working knowledge in imaging and geometric optics, optical design, simulation software and device fabrication and testing.
- Very good oral and written communication, presentation, and team skills.
- Project management and commercial experience an advantage.

The Role:

- Optical physicist/engineer contributing to and potentially leading technically demanding development projects.
- Participate in the client interface, communication and management.
- Take responsibility for best in class project delivery.

The Rewards:

- Participating in a fast moving, world class business, with the opportunity to make a visible contribution to the success and growth of the business.
- Competitive salary and benefits.
- Professional development into a variety of technical, business and leadership roles.
