

opportunities

TTP is looking for clever, hardworking, innovative and hands-on scientists and engineers with a high degree of commercial awareness to contribute to the continued growth and success of our business. Our success depends on flexible and committed staff prepared to ensure we meet our customers' targets – development timescales are short, the specifications demanding, and the projects often require frequent international travel.

TTP LabTech

Scientific Instrument Assembler (ref.www-LT23)

The Role

- Working flexibly within a small manufacturing team, building and testing a varied range of low-volume, precision products for laboratories and the pharmaceutical industry
- Producing high quality work with minimum supervision to achieve deadlines

The Qualifications

- Significant experience of assembling scientific instruments or other precision products
- Ability to perform basic testing and problem solving
- Ability to work accurately to procedures to produce work of consistent high quality
- Ability to liaise with design and development engineers
- Basic computer literacy

(A background in tool making and competence in fine tolerance manual milling and turning would be an advantage)

The Rewards

- Competitive salary and benefits.
- Participating in a fast moving, world class business, with the opportunity to make a visible contribution to the success and growth of the business.
