

opportunities

TTP is Europe's leading technology development and engineering company. Based near Cambridge, England, we have about 300 staff developing technologies, products and manufacturing processes in fields that range from wireless communications and digital printing through to medical devices and life science instrumentation. Our customers are leading businesses throughout the USA, Europe and the Far East.

Multidisciplinary Scientist (ref.www-ST2)

System Technology Group

TTP is seeking an experienced multidisciplinary scientist / engineer to support the development of innovative systems and technologies for biotechnological and medical applications. The successful candidates will be expected to make a solid contribution to a group with core business in diagnostics, bio-instrumentation and surgical technology.

You will be expected to:

- Immediately engage in a technically and commercially stretching environment
- Contribute to and lead technically demanding technology projects
- Effectively integrate with a talented team of like-minded people

You will have:

- A 1st or 2.1 class degree in a relevant scientific / technical discipline (biomedical sciences, chemistry, physics, engineering, materials) with pertinent multidisciplinary doctoral and/or employment experience
- A focus on system development
- Intrinsically high levels of motivation
- Excellent communication and presentation skills
- A good mixture of analytical, experimental and creative capabilities
- Strong interest / track record in medical device development

Your experience will be in one or more of the following areas:

- Diagnostic device development
 - Biosensors (e.g. electrochemical, optical, etc.)
 - DNA analysis (e.g. molecular diagnostic devices, sequencing tools)
 - Point of care systems
 - Microfluidics
 - Application of nanotechnologies
 - Implantable devices
- Bioprocess system development
 - Novel bio-analytical tools
 - Development of disposables
 - Process modelling

Employment benefits

- Highly competitive salary and benefits
- Professional development into a variety of technical, business and leadership roles
- Participation in a fast moving company with the opportunity to make a visible contribution to the success and growth of TTP
