

opportunities

TTP is Europe's leading technology development and engineering company. Based near Cambridge, England, we have about 300 staff developing technologies, products and manufacturing processes in fields that range from wireless communications and digital printing through to medical devices and life science instrumentation. Our customers are leading businesses throughout the USA, Europe and the Far East.

TTP is seeking bright, ambitious electronic engineers to create, analyse and develop new technology. The successful candidates will be expected to make a solid contribution to a group with core business in diagnostics, bio-instrumentation, surgical technology and other high-end applications.

Electronics Engineer (ref.www-ST3)

System Technology Group

You will be expected to:

- Immediately engage in a technically challenging and stretching environment.
- Contribute to and lead demanding medical projects within a talented team of like-minded people.
- Be client-facing with excellent communication and presentation skills.

You will have:

- A 1st or a 2.1 degree in electronic engineering.
- Intrinsically high levels of motivation
- Significant track record of designing analogue, digital and wireless electronic systems with a good understanding of low-level circuit operation.
- Experience in developing wireless systems, antennas, embedded software and diagnostic devices in a regulated development environment would be an advantage.
- Hands-on technical leadership and project management capabilities.
- Outstanding technical capabilities combined with commercial awareness.

Employment benefits

- Competitive salary and benefits.
- Professional development into a variety of technical, business and leadership roles.
- Participation in a fast moving, world class business, with the opportunity to make a visible contribution to the success and growth of the business.
